Institute: Sepanta Education of Computer Science  
August 2020

## Profile Summary

We are currently in the midst of a technological and computing revolution that will drastically change our lives and potentially redefine what it means to be human. I am very excited at the prospect of devoting my long-term career to such a dynamic, fast advancing field. Ever since I was young, I have enjoyed dabbling with computers and experimenting with different applications. Because my own lifetime has essentially coincided with the rise of the modern computing industry, I can sense that there are still tremendous developments to come in this field.
